PRIDEFEST FALLOUT

Rivera was right to stand up for his principles

Thank you, Mayor Lionel Rivera for not issuing a proclamation of support for this year's Colorado Springs gay pride parade ("Pridefest receives no support from mayor," The Gazette, July 7). We are tired of having the gay population try to push same-sex marriage upon us and promote their lifestyle to the rest of us.

I believe Vice Mayor Richard Skorman was not correct in stating Rivera's view is not representative of the majority of the population. I am thankful our mayor stands up for what he believes.
